

# Call for Papers

## Special Edition on AICS International Workshop on Data Assimilation

### Dear Colleagues

We are pleased to announce the Special Edition on AICS International Workshop on Data Assimilation in the Journal of the Meteorological Society of Japan (JMSJ). The main purpose is to collect the state-of-the-art original articles related to the AICS International Workshop on Data Assimilation.

### Editorial Board

- Chief Editor: Takemasa Miyoshi (RIKEN AICS, Japan)
- Co-chief Editor: Tadashi Tsuyuki (MRI/JMA, Japan)
- Editors:
  - Shu-Chih Yang (National Central University, Taiwan)
  - Takeshi Enomoto (Kyoto University, Japan)
  - Nobumasa Komori (JAMSTEC, Japan)
  - Shigenori Otsuka (RIKEN AICS, Japan)

### Contact

Data Assimilation Research Team, RIKEN AICS

Email: [aics-da-desk@riken.jp](mailto:aics-da-desk@riken.jp)

### Topics of the Special Edition

We are soliciting submissions of unpublished, original scientific articles related to the AICS International Workshop on Data Assimilation. The topics include:

- Theoretical challenges, e.g., treatment to nonlinearity and non-Gaussianity
- Convective-scale applications for heavy rainfall forecasts
- Applications for aerosols and chemical constituents
- Better use of satellite data and other new types of observations
- Multi-surface and multi-scale treatments
- Wide applications beyond geophysical science

### Submission of papers

To be considered for this Special Edition, manuscripts shall be submitted through the online editorial system of JMSJ.

<http://mc.manuscriptcentral.com/jmsj>

Please select “Data Assimilation” in the “special edition” pulldown menu.

JMSJ Authors’ Guide including the page and color charges is available in the above website.

### Important Dates

- Open of the submission site: May 2013
- Submission due: October 2013
- End of the review process: March 2014
- Publication: June 2014
